Breeders' List

To request any amendments to this list please e-mail membership@nfrs.org

Current List of NFRS Registered Breeders and their Varieties

The below list provides details of NFRS members who are registered as rat breeders and have requested to be included in this list. This list is not a recommendation by the NFRS of any stud or rattery as the NFRS is not in a position to check or vet any of its breeders. The NFRS committee cannot accept any responsibility for the breeders and buyers who use this list as in many cases they do not know the individuals concerned. Please ensure you have asked plenty of questions of the breeder if you have specific requirements in any area. All NFRS registered breeders are expected to sell their kittens within the NFRS guidelines for selling kittens. NFRS members can advertise and find adverts for available kittens on our Members' Forum at www.nfrs.org/forum.

You may find that you have to wait a while to find the particular kitten you are looking for, because most breeders will plan litters so they do not become over run with babies. If a breeder is not local to you, it may be possible to arrange for assistance in transportation via other breeders or to shows. You may find breeders will consider rehoming retired breeding rats if you are happy to take on older rats with a more known and reliable background than rescues.

Entries are listed by area and then alphabetical order of surnames. Please note that breeding is not a business and as such, it may take a little time for breeders to respond to enquiries.

Rats are social animals and it is therefore kindest to keep them in groups of two or more of the same sex. Kittens should not leave home until they are at least six weeks old but it is advisable to separate doe kittens from bucks between 4-5 weeks to avoid unwanted pregnancies. The average cost of kittens is usually between £10 to £20 each but is at the discretion of the breeder.

For more information on the NFRS Accolades scheme, please visit www.nfrs.org/show_accolades.html.

You may find a more up to date version of this document here: http://www.nfrs.org/NFRS_Breeders_List.pdf

All information is held on the Breeders' List in accordance with GDPR and our Privacy Policy (www.nfrs.org/privacy.html)
